PARTS AND PIECES

A – Porcelain top

B – Lid

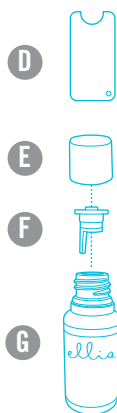

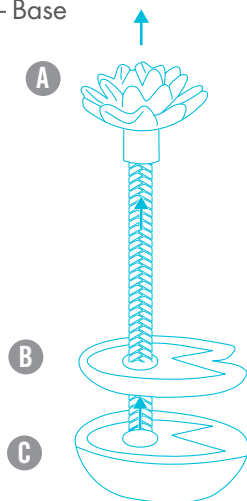

C – Base

D – Orifice reducer tool

E – Safety cap

F – Orifice reducer

G – 15mL bottle of Orange essential oil and 15mL bottle of Eucalyptus

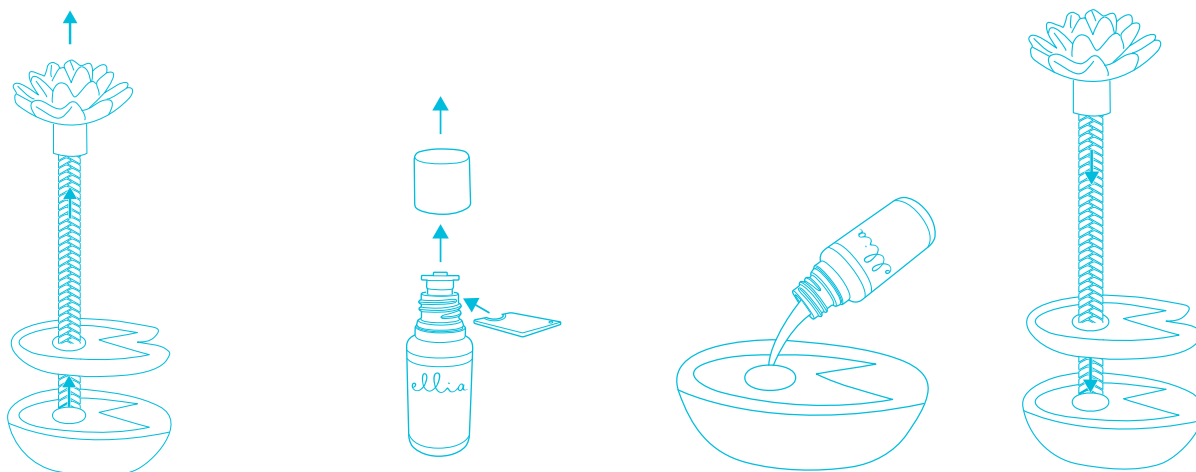

UNIQUE FEATURES AND SPECIFICATIONS

Aroma

Your diffuser will provide scent for up to 2 weeks if filled with 15mL of oil. Add another 15mL bottle of oil as needed or when the rope wick begins to dry and the scent fades. Discoloration of the porcelain top is normal and will vary depending on the oil used. The porcelain top will also begin to fade in color when it is time to add more oil.

HOW TO USE AND DIFFUSE

Instructions

1. Remove the porcelain top and lid from the diffuser base.
2. Remove cap and orifice reducer from the oil bottle using the orifice reducer tool.
3. Pour up to 15mL of essential oil into the base.
4. Place topper onto the lid, slide the rope wick through the rubber stopper, and secure to base of the lid.
5. Place onto the base, allowing the rope wick to drop directly into the essential oil.
6. Allow oil to completely absorb into the wick and ceramic topper to diffuse.

CLEANING AND CARE

To clean: Remove porcelain top. Use mild soap and water to clean the base, wiping the inside and outside surface with a soft cloth.

ESSENTIAL OILS AND PETS

We should always exercise caution when using essential oils around our pets. Keep all essential oil and aromatherapy products (like diffusers) out of reach of pets. Keep open bottles away from pets to avoid internal consumption. We do not recommend the topical use of essential oils on pets, as they have a strong sense of smell and cannot get rid of the oil if they don't like it or it is disturbing them. When diffusing essential oils around pets, always diffuse in a well-ventilated area and leave an option for them to remove themselves from the space, such as leaving a door open. Every animal is different, so carefully observe how each animal responds when introducing an essential oil for the first time. If irritation occurs, discontinue the use of the essential oil. We recommend seeking medical attention if ingestion of essential oil occurs.
